

Final Project – Team Teaching

Name: Dorothy Babbage

School: Shrine Grade School

e-mail Address: dbabbage@ix.netcom.com

Subjects: Language Arts, Technology

Grade Level: Second

Description: Working with the second grade teacher we had the students do a writing project using Quick Pads and then we used the projector and Smart Board to help with the proofreading of the writing. The completed project was in one document that was printed for all students.

Curriculum Standards

L.A. Standards 3,5,6

Technology Standards 1, 2, 3

Materials:

Computer

Quick Pads (portable word processors)

Word processor

Projector

Smart Board – optional

Classroom Teacher:

The classroom teacher will direct the original writing assignment and students will write it on paper.

Computer Teacher:

The computer teacher will help the students enter their writing into the Quick Pads.

Students:

The students will enter their writing into the Quick Pads.

When all of the students have finished their writing assignment the class will work together to proofread the text.

The computer teacher and classroom teacher will help the students send their work for the Quick Pad to the word processor on the computer. The projector will show their writing on the Smart Board screen. Each student will proofread their own work and make the changes on the Smart Board. When the student is finished the rest of the class can help with the proofreading. The completed document will be printed for the class.

Assessment Plan:

Students will be assessed on their writing ability and their proofreading. Points can be earned by writing correctly and helping others correct their work.
